

THE EXTREME LITE ATM: SMALL FOOTPRINT, BIG IMPACT

DIEBOLD
NIXDORF

It's an unprecedented first in the marketplace: A self-service terminal with a sleek, modern appearance supported by the highest quality components for maximum reliability. The Extreme Lite ATM was specifically engineered to offer an impressive total cost of ownership (TCO) without sacrificing the things that matter most: exceptional user experience, maximized cash management and minimized downtime.

EXTREME DURABILITY & PROCESSING

- Built with certified Diebold Nixdorf parts, including ActivCash dispense, for dependability you can trust.
- Simplified, dematerialized design means fewer moving parts and less operating complexity.
- Highly responsive, sleek, multipoint touchscreen geared toward digital natives.
- Available with recycling options that can process 20 notes in 10-11 seconds.

EXTREME SIZE

- At just 18" wide, it's one of the most compact self-service terminals available today.
- Designed to meet the needs of busy environments without consuming valuable square footage

EXTREME FUNCTIONALITY

- Cash-in/cash-out transaction capabilities via EMV chip card reader and/or NFC.
- Check deposit capabilities with option to return or retain the check.
- Compact thermal receipt printer, physical EPP and encrypting touchscreen.
